

SUPERTOUCH®

PRODUCT INFORMATION

FFP2 Folding Respirator

Description:

Our FFP2 Folding Respirator Mask features a 3-panel fold flat design engineered to fit a wide range of face shapes and sizes.

- ✓ CE Certified to EN 149:2001+A1:2009
- ✓ Valved to avoid heat build up for greater comfort
- ✓ Category III
- ✓ Latex free elasticated head strap
- ✓ Adjustable nose bridge for comfortable fit

Packaging:

10 Pieces per inner - 40 boxes per case

Product Codes:

SPE-FP2V Standard FFP2 Folding Respirator

Standards:

CE 2797

0086 CAT III

Single use only
Do not reuse

PPE Regulation (EU) 2016/425 and personal protective equipment by the PPE Regulation 2016/425 as amend to apply in GB.

EN 149:2001+A1:2009 - Respiratory protective devices:

SUPERTOUCH® How To: Don & Doff Respiratory Protective Equipment

Part 1 Correctly fitting (donning) Respiratory Protective Equipment

1. Cup the respirator in one hand with the straps hanging downwards. Check the respirator for any damage. If it is defective, **do not use** it and dispose of it immediately.

2. Hold the respirator in place on your face. Make sure the nose piece is facing up.

3. Pull the bottom strap over your head and position it at the bottom of your neck, below the ears. Do the same with the top strap, positioning it at the crown of the head above the ears.

4. Tighten the straps as desired, and mould the metal nose strip with your fingertips to ensure a secure seal around your face.

5. To ensure that the mask has no leakage, cup your hands over the filter material and breathe in. If the respirator sucks down hard onto the face, the seal is secure.

6. Continue to breathe in and out sharply. If the respirator is fitted correctly, you should not feel any leaks around its edges.

Part 2 Correctly removing (doffing) Respiratory Protective Equipment

1. **Do not** under any circumstances touch the front of the respirator as it may be contaminated.

2. To remove, pull the bottom strap over your head, followed by the top strap. Hold onto the top strap, using this to pull the respirator away from your face.

3. Carrying the respirator by the top strap, discard it into a waste container as soon as possible.

4. Make sure to wash your hands thoroughly before touching any other surfaces or objects.
